

● Inmarsat's Broadband Global Area Network service – BGAN – is accessible via a small, lightweight, satellite terminal, which is quick to set up and easy to use. And you can use the same device worldwide.

A range of terminals is available, providing performance options to suit different operational needs. The service is accessed via BGAN LaunchPad, a software interface, which is standard across all terminals.

# Voice and data, single-user device

The SABRE™ I combines a robust, compact design with performance and optimal flexibility. It is equipped with a range of common interfaces, providing connectivity options in the field and the swivelled antenna facilitates rapid and easy pointing for a satellite connection. Combined with its sub-laptop size, the terminal is ideal for single users who need to set up a complete broadband mobile office in frequently changing locations.

#### **Applications**

- Remote access high-speed access to your corporate network, as well as company and customer information.
- Internet access access the internet at speeds up to 384kbps.
- Email send and receive email via the internet or email applications.
- Telephony make phone calls at the same time as accessing data applications.
- Streaming select guaranteed quality of service up to 64kbps on demand eg. for video, audio.
- File transfer send and receive large files.
- Store and forward save and send files eg. video.

#### Key benefits

Ultimate portability – at around half the size of a laptop, it is one of the smallest and lightest terminals in the range.

Simultaneous voice and broadband data – access your data applications and make a phone call at the same time using the SABRE $^{\text{\tiny{M}}}$ I.

Highly flexible – can be connected to a laptop via the Ethernet port or wirelessly via Bluetooth.

Global coverage – provides service anywhere within the BGAN coverage area.

Easy to use – you can easily access the service using the intuitive icon-based BGAN LaunchPad on your laptop.

Robust – the strong casing means the SABRE $^{\text{m}}$  I can withstand the toughest of environments.

Completely secure – connect seamlessly via your preferred VPN application.

#### Physical characteristics

| Weight          | < 1.65kg (3.63lb)   |
|-----------------|---|
| Dimensions      | Length: 259mm (10.20in)<br>Width: 195mm (7.67in)<br>Depth: 58mm (2.28in)  |
| Interfaces      | RJ-45 Ethernet port RJ-11 phone port Bluetooth - Supported profiles: - Cordless handset - Headset - Serial port |
| User access     | Via activated 3G compatible SIM card  |
| User interfaces |   |

## On terminal Power

| DC input      | 15 – 20 VDC<br>(power adapter and car charger)  |
|---------------|---|
| Power adapter | Input 100 – 240 VAC, 47 – 63Hz<br>Output 15 VDC   |
| Battery life  |   |
| Typical use   | Transmit time: 1 hr continuous<br>transmission at data rate <= 72kbps<br>Receive: 3 hrs when receiving only |
|               | Stand-by time: 36 hrs   |
| Battery type  | Lithium-ion. Rechargeable   |

#### **Tolerances**

| Operating temperature | -20°C to +70°C<br>(-4°F to +140°F)             |
|-----------------------|--|
| Charging temperature  | 0°C to +45°C<br>(+32°F to +113°F)              |
| Operating humidity    | 95% non-condensing<br>at +40°C (+104°F)        |
| Storage humidity      | 5% to 95%<br>(Relative humidity)               |
| Water and dust        | IP 54 (dust and spray proof in all directions) |

#### Supported operating systems

| Operating system | Microsoft Windows 2000, XP |
|------------------|----------------------------|
|                  | Mac OS 10.1 and above      |
|                  | Redhat 9.0 and above       |

#### Data capabilities

| IP data      |                                  |
|--------------|----------------------------------|
| Standard IP  | Background class of service      |
|              | Send: Up to 240kbps over         |
|              | a shared channel                 |
|              | Receive: Up to 384kbps over      |
|              | a shared channel                 |
| Streaming IP | Guaranteed quality of service    |
|              | Send: 32, 64kbps                 |
|              | Receive: 32, 64kbps              |
| SMS          | 640 characters via web interface |
|              |                                  |

#### Voice capabilities

| Voice                  | 4kbps  |
|------------------------|--|
| Supplementary services | Voicemail Call forwarding Call barring Call waiting Call holding |
