

# EXPLORER® BLUETOOTH HANDSET

Bluetooth handset for wireless satellite voice communications

**The EXPLORER Bluetooth handset is a cordless telephone handset designed to connect wirelessly via Bluetooth to satellite terminals such as the Thrane & Thrane EXPLORERs. That way you can talk on the phone with anybody anywhere in the world – without strings.**

## **Wireless and long ranging**

When working in the field, cables can be a nuisance. They limit freedom of movement and can take a while to untangle for use. With the EXPLORER Bluetooth handset you enhance the portability of your EXPLORER terminal, by enabling wireless voice communications from anywhere in the world. You get all the basic features of a regular cellular telephone, e.g. call back, phone book, caller ID and a list of last calls. Furthermore, the range of the handset is so long that you can actually wander up to 100 metres (328 ft) away from your terminal without losing touch. Inside, you can make calls two or three rooms away from your terminal, depending on the layout of the building. With The EXPLORER Bluetooth handset, range is both long and without tangles.

## Highlight features

- Wireless Bluetooth phone
- Up to 100m/328ft range (outdoor)
- Phone book
- Call list

## Technical Specifications

Standard:	Bluetooth™
Dimensions:	137x46x21mm / 5.4x1.8x0.8inches plus antenna
Weight:	Approx. 100g / 0.2lbs
Battery type:	Liithium-Ion; 900mAh
Service life of EXPLORER	Speaking: min. 11 hours
Bluetooth Handset Stand-by (with full battery):	min. 43 hours
Charge time:	Approx. 3 hours
Frequency range:	2.4 - 2.483GHz (ISM frequency band)
Transmitting power:	Up to max. 100mW, up to max. +20dBm
Permissible operating temperature:	Handset: -5 °C to +45 °C
Charger:	+5 °C to +40 °C / +41°F to +104°F
Storage temperature:	-25 °C to +55 °C / -13°F to +131°F
Transport temperature:	-25 °C to +60 °C / -13°F to +140°F
Protection category:	IP54, splashproof and dustproof
Accessories:	Charger, plug-in power supply, Charger cable for charging from EXPLORER terminal. Ask your dealer for further accessories (e. g. cases, protective cases and clips) and availability.
